making skills in the field of
accounting business

9. Teaching and learning strategies

1. **Explaining concepts clearly:** The teacher begins by explaining the basic concepts and principles of intermediate accounting clearly and in a way that is easy for the students to understand.
2. **Extensive use of examples and practical applications:** The teacher uses examples and practical applications to better explain accounting concepts and principles and to illustrate how they are applied in reality.
3. **Interactive learning:** The teacher encourages students to interact during the lesson by asking questions and encouraging them to participate in discussions and group activities.
4. **Use of multiple educational methods:** The teacher uses interactive presentations, educational videos, and illustrations to clarify complex concepts and make them more clear.
5. **Cooperative learning:** The teacher encourages students to work together in groups to solve accounting problems and discuss practical cases, which enhances cooperation and interaction between them.
6. **Continuous Assessment and Immediate Feedback:** The teacher provides continuous assessment of students' performance and provides immediate feedback to help them improve their understanding and performance in Intermediate Accounting.
7. **Review and critical discussion:** The teacher encourages students to regularly review and critically discuss the material, which helps them enhance their understanding and apply concepts in different contexts.

Strategy
