قسم المحاسبة

### Expected learning outcomes of the program

#### knowledge

- The student demonstrates understanding and knowledge of the basic theories, principles and concepts in various .accounting fields
- The student demonstrates a deep knowledge and understanding of the processes, procedures, techniques and practices in the field of accounting and .auditing
- The student will be able to recognize, understand and use .technical knowledge

1- Cognitive objectives

#### Skills

- Professional skills in the accounting and financial aspects of financial and .business institutions
- Skills in data analysis and

2- Program skill objectives

statistical processing in the fields of finance and .banking

- Skills in auditing programs, writing reports, examining internal control systems, and understanding methods for evaluating financial .institutions

values

- Developing students' ability to share ideas

#### 7. Evaluation methods

- Weekly exams
- monthly exams
- Daily exams
- Submit reports
- End of year exam

#### 8. Teaching and learning strategies

- 1- Explain the scientific material to students in detail.
- 2- Students' participation in solving mathematical problems.
- 3- Discussion and dialogue on vocabulary related to the topic.

9. Faculty
